Profile

I am a passionate Full Stack developer focused on building efficient and scalable web solutions. Currently pursuing a Software Engineering degree, I specialize in creating robust backend architectures, RESTful APIs, and database solutions. With a results-driven mindset, I aim to combine technical creativity and code precision to solve complex problems. I constantly stay updated with the latest technologies, always seeking to optimize processes and improve the end-user experience. While I excel in backend development, I possess a strong understanding of the frontend, enabling me to deliver complete and functional products. Additionally, I am known for my strong work ethic, collaborative leadership, and ability to communicate and work effectively within a team.

Education

- 2021 - 2025** Software Engineering, Universidad Técnica Nacional
- 2016 - 2020** High School Diploma, Colegio Cooperativo San Carlos Borromeo
- 2009 - 2015** Primary Education, Escuela el Carmen

Projects

Project Management Application - Currently developing a web application to facilitate team project management.
